Mr. Paul Templeton
Director of Airline Relations
Airline Transport Professionals
1555 The Greens Way
Jacksonville Beach, FL 32250

Dear Paul,

Over the past year, PlaneSense, Inc. has continued to grow and has enjoyed a strong and mutually beneficial relationship with Airline Transport Professionals (ATP). We have been very fortunate to hire some of their personnel and understand firsthand the quality of their programs and strength of their pilots when operating in the corporate pilot environment. Earlier this year, we added the Orlando, Florida area as a pilot base to meet our increasing need for high quality corporate pilots.

In early October, we were very fortunate to be hosted by the aviation professionals at ATP in Daytona, Florida. The Training Center Manager, Paul Marocchi, and his team supported our use of their offices and simulators to conduct on site new hire interviews. Nearly 50 interviews of area pilots were completed in two days from which we will offer 15 commercial pilots a candidate seat in our training program in 2015. It was no surprise that of the successful interviews, there are several current ATP instructors that were offered a candidate seat with us next year. Additionally, our sincere thanks to the professionals at ATP Daytona for exceeding our expectations and providing the venue to recruit, interview, and likely hire several candidates in the Orlando, Florida region.

We could not have accomplished our goals, nor find the high quality corporate pilots we need, without the partnership of the professionals at Airline Transport Professionals. It remains our good fortune to have such a strong, mutually beneficial relationship with the ATP Team.

Sincerely,

A handwritten signature in black ink that reads "Ray Torres". The signature is fluid and cursive, with a long horizontal stroke at the end.

Ray Torres
Vice President of Flight Operations
PlaneSense, Inc. and
Director of Operations, Cobalt Air, LLC
